Inventive Front-End Developer, with 6 years of experience in blending design and programming.
Delivering immersive and engaging user experiences through web development.

PROFESSIONAL EXPERIENCE

Heartbeat   **2024 - present**
- Front End Engineer on Acadia with Symfony, React, Contentful, SCSS. Rebuild Parkinson's disease website for improved DXP. Created and managed content infrastructure. Convert Figma design components into front end code

Hero Digital   **2021 - 2023**
- Front End Engineer on Nagase with AEM, JavaScript and SCSS. Enhanced the website to ensure greater accessibility for individuals with disabilities. Implemented navigation menu, forms, carousel and dropdown.
- Front End Engineer on Comcast with React, TypeScript and SCSS. Improved the Comcast Business Mobile Savings Calculator UI, functions, and results output.
- Front End Engineer on Zoom with Optimizely, Storybook, JavaScript and SCSS. Zoom DXP replatform. Translated Figma design components into front end code.
- Front End Engineer on Twitter / X with AEM, React and SCSS. Improved the website to be more accessible to people with disabilities. Worked on the carousel, navigation menu, tabs, combobox, dropdown, modal and forms.
- Front End Engineer on Lucid Motors with React, Redux, Gatsby and SCSS. Redefined the automotive ownership experience. Implemented customer portal, dashboard for ownership, contact us form, internationalization
- Front End Engineer on Gelesis with React, TypeScript and SCSS. Hosted member experience content to aid weight management in adults. Developed member landing page and registration page.

Kena AI - Front End Engineer on Kena AI   **2019 - 2021**
- Contributed to full-stack web development project with an emphasis on front end features for music learning app
- Worked with UX Designer to develop iOS and Android browser-based UI prototypes and high-fidelity designs
- Added new features to music learning app to enable the uploading of audio and provide instant feedback

Foresight Mental Health - Front End Software Engineering on Foresight Mental Health   **2018 - 2019**
- Created dashboard and chat system for patients, operators and doctors to communicate
- Implemented online calendar for operators to schedule appointments.
- Worked closely with designers to create and develop continuous produce enhancements and releases

TECHNICAL SKILLS

React, Redux, TypeScript, JavaScript, WCAG, SCSS, D3.js, JQuery, Next.js, Node.js, AWS API Gateway, S3, Lambda, MySQL

PERSONAL PROJECTS

COVID-19 U.S. cases by county
- Confirmed cases of coronavirus in the U.S.
- Utilized D3.js for map visualization
- JavaScript ◇ D3.js ◇ HTML ◇ CSS
- https://jinredhub.github.io/us-map-covid-19/

Arpeggios
- You can play arpeggios in different patterns
- Utilized Web Audio API for the sound
- JavaScript ◇ D3.js ◇ HTML ◇ CSS
- https://jinredhub.github.io/arpeggios/
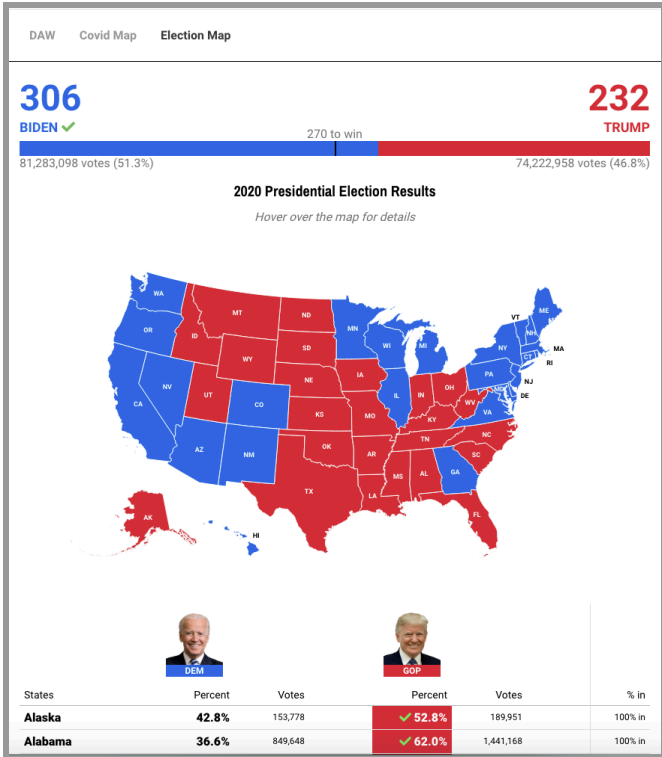

EDUCATION

UC Berkeley Extension
- Certificate in Web Development. Ranked highest GPA for the July 2017 Cohort.

Academy of Art University
- Associate of Art in Computer Art
